To Whom It May Concern:

My name is Josh Kribell, and I am writing to be considered as a student teacher in your district. I am currently attending Dakota State University, majoring in Elementary Education with minors in History and PreK–12 Reading, and I am eager to continue developing my skills and expertise as I prepare to become a full-time educator.

Through my time at DSU, as well as serving as a teaching assistant for Mr. McVey in high school, has allowed me to view education from a new perspective and solidified my conviction in pursuing a career in teaching. My coursework at Dakota State University has helped me build a foundation of educational practices, technology integration, and reading instruction. I am comfortable using various educational technologies, including Google Apps, Microsoft Office, and formative assessment tools such as Quizlet and Kahoot, in order to support student learning and engagement. While I do not believe that there is one, perfect, way to teach that will work for every student, I strongly believe that students learn best in an environment that encourages curiosity, hands-on learning, and a willingness to explore new ideas and accept failures.

I would be honored to be considered as a student teacher candidate for your district. I look forward to applying what I have learned at Dakota State University while continuing to grow as an educator and positively influence the lives of students. Thank you for your time and consideration. I look forward to the opportunity to contribute to your school community.
